

Public Accountability Measures – 2018-19 Performance

The new performance framework for Wales was introduced in 2017-18 following the revocation of the Local Government (Performance Indicators) (Wales) Order 2012 which removed the duty on local authorities to submit National Strategic Indicators (NSI) data.

The revised framework provides a clear and simple overview of local government performance using Public Accountability Measures (PAM). Data Cymru publishes the results when they become available from source, for example from Welsh Government, Welsh Local Government Association, Local Authorities, Careers Wales, Keep Wales Tidy, Natural Resources Wales. As a result PAMs become available throughout the financial year.

This summary outlines Cardiff's performance in the 19 indicators that were available on 29th July 2019.
