

Write a Letter or Draw a Picture.

Why not take part in Children's Art Week and make someone smile?

The theme this week is Connecting Across the Generations. Cardiff Libraries love to work with children, families and older people to bring people together, share memories and experiences, and make people smile.

You can help spread happiness and cheer by writing a letter or drawing a picture and sharing it with a loved one, a care home, or an older person in your community. Share your creations with Cardiff Libraries so we can create a Children's Art Week gallery on Facebook and Twitter.

Here are some ideas for what you could write or draw:

- Write about what you have been doing at home during lockdown;
- What are you most excited about going to school/nursery?;
- What have been the best and worst things about being at home?;
- What/who have you missed during lockdown?
- What makes you happy?
- If you have tried any of the Children's Art Week activities from Cardiff Libraries, take a picture of the things you have made and write about how you made it.

When you have finished:

Share your letter or drawing on Facebook @CardiffLibraryService or Twitter @cdflibraries and we can share it with care homes in Cardiff.

Send your letter or drawing onto a friend or family member you know would appreciate it.

Post your letter or drawing to a neighbour along your street who you know.
