

## **Cowbridge Road West - Closure Of Service Road**

### **Description of Scheme Proposal**

Cowbridge Road West Service Road is a residential street. Concerns have recently been raised by local residents that there has been an increase in the number of vehicles using this service road. Council Officers have investigated this issue in order to assess the problem and identify a solution.

Following the implementation of the Enforcement Camera for No Right Turn from Cowbridge Road West into Amroth Road the vehicle volumes on the Service Road have increased to almost 300 vehicles per day. We have identified that vehicles are travelling all the way down the service Road and then effectively doing a U-Turn across Cowbridge Road West in order to gain access into Amroth Road.

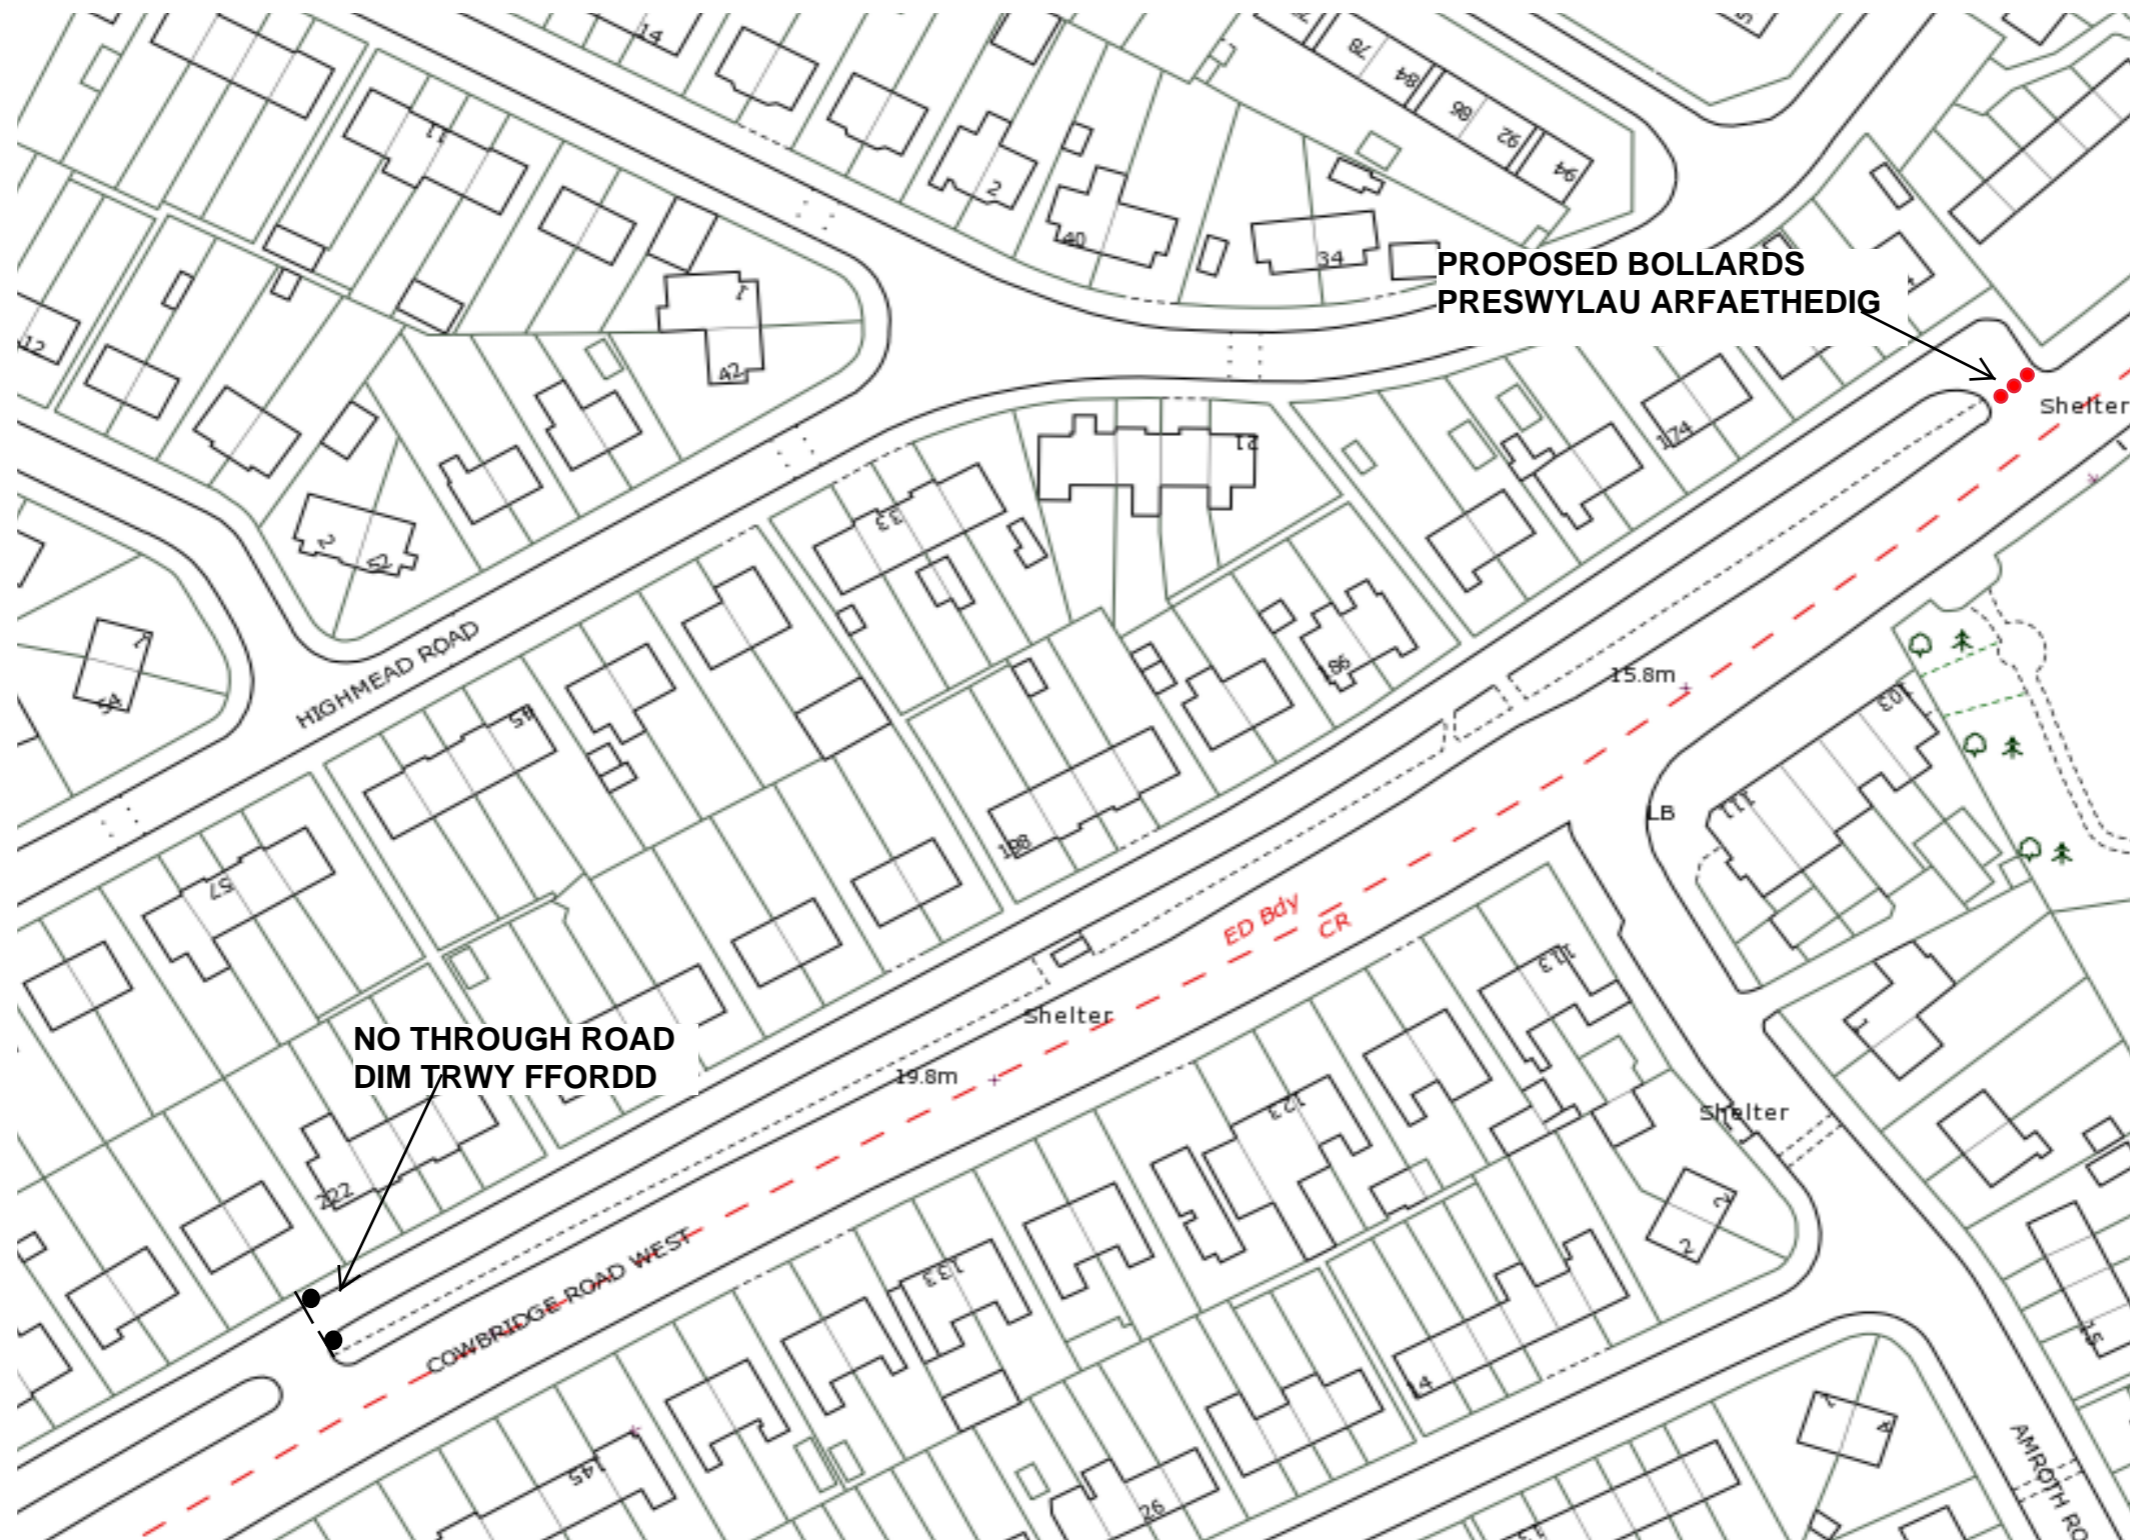

We propose to close the service road to motor vehicles at the most southern junction with Cowbridge Road West (near No.164). Residents will still be able to access the service road at the other two junctions (near No. 224 and No. 276).

### **Additional Information about traffic management measures**

Traffic Regulation Order. These are the restrictions placed on the Highway that direct, control and prohibit road user movements. For example 20mph speed limits. No Entry. No Right Turn. One Way. No Waiting. These regulations must pass through a lengthy legal process. If approved, the signs or lines are placed on site and enforced by the Police or Civil Parking Officers.
