Pentyrch: Main Road Near Ynys Bridge: Pedestrian Facilities

Description of Scheme Proposal

Currently, there is a 40mph speed limit at this location, and there is no continuous footway on Main Road linking the residential areas with places of employment and local community schools.

We propose to provide tabled zebra crossings on Main Road near the roundabout, together with improvements to the existing footway. In addition, we propose to reduce the speed limit to 30mph, and this will be subject to a separate legal Traffic Regulation Order process.

These highway improvements will reduce traffic speeds, provide a footway and controlled pedestrian crossings. This will create a safer highway environment which will make it easier for residents to access local services, community schools and bus stops.

Additional Information about traffic management measures

Traffic Calming Features. This term refers to specific physical traffic management measures which force drivers to reduce vehicle speeds. These include road humps, speed cushions, speed tables, priority narrowings, chicanes, gateways, roundabouts and other similar features.

Traffic Regulation Order. These are the restrictions placed on the Highway that direct, control and prohibit road user movements. For example 20mph speed limits. No Entry. No Right Turn. One Way. No Waiting. These regulations must pass through a lengthy legal process. If approved, the signs or lines are placed on site and enforced by the Police or their Traffic Wardens.

Speed Table. This is a variation of the speed hump where the top of the raised (tabled) area is over two metres wide. This causes less discomfort to bus passengers as the rise and fall actions are separated by the level section. These are sometimes used in conjunction with pedestrian crossings to reduce speeds and to make the crossing more noticeable to drivers.

Zebra Crossing. This type of crossing is suitable for sites with medium levels of pedestrian demand and vehicle flows where a puffin crossing is not justified. They can provide a better level of service for pedestrians as there is no minimum time waiting for the right to cross. They can be usefully combined with build-outs

which improve visibility to and from vehicles, reduce crossing distances and clarify that pedestrians are intending to cross the road.

Tabled Zebra Crossing. This is where a **zebra crossing** includes a **speed table**, or is sited at a tabled junction, ether as part of a wider set of traffic calming or on its own.

Mae'r Cyngor yn ymgynghori ar y cynnig i weithredu cynllun rheoli traffig yn seiliedig ar y cynllun.

Mae rhagor o fanylion am yr ymgynghori hwn ar gael yn www.caerdydd.gov.uk/transportprojects ar y ddolen 'gweld ymgynghoriadau'. Fel arall, e-bostiwch Projectautrafnidiaeth@caerdydd.gov.uk neu ffoniwch 029 2087 3802 i ofyn am gopi papur. Os hoffech wneud unrhyw sylwadau am y cynnig rhowch wybod i ni erbyn **29/03/2019**

The Council is consulting on the proposal to implement a traffic management scheme based on the plan shown.

Further details about this consultation are available at www.cardiff.gov.uk/TransportProjects using the 'view consultations' link. Alternatively, please e-mail TransportProjects@cardiff.gov.uk or telephone 029 2087 3802 to request a paper copy. If you would like to make any comments about this proposal please let us know by **29/03/2019**
