Yes to the Green Belt, No to the Green Wedge!

We want Cardiff to have a Green Belt which will protect the countryside permanently on the outskirts of Cardiff and to reject the Green Wedge which only offers protection for the lifetime of the Local Development Plan.

Save this beautiful setting for our city which benefits our physical and mental health. There is no shortage of concrete.

Stop the concrete jungle and save a little bit of nature for our future generations. It's a wonderful place to walk and for my children to climb a tree and run around. Safe & healthy activity.

Green belt is precious and we need to keep it not only for ourselves but for our children and grandchildren. Once it's gone, it's gone for ever.

Brown field sites and derelict land should be cleared and used, also empty houses refurbished. Green fields should not be built on.

A plan for this green belt was submitted some 20 years ago and it was widely assumed that it had been agreed. The case for it is even stronger now.

Traffic is bad enough in this area during rush hour and the day. We love the green open spaces, it's what makes this area desirable.

Destruction of the Green Belt to provide yet more housing will lead to further overcrowding of the city and overstretch existing physical infrastructure and public services.

Jo Patterson United Kingdom, Cardiff

There are so many unused and underused buildings and plots of land within the city. These should be utilised before the city is expanded. Should also work with other towns within the area to do the same. Wales is beautiful because it is green. Let's keep it that way!

Why do we need 45,000 houses in Cardiff when our roads and public services are unable to cope with the number of residents in the city now ??

We must keep the green belt north of the M4! Apart from anything else the traffic is bad enough now without extra houses.

We are one of only a few suburbs of Cardiff with great access to the countryside. I feel strongly that we should protect our green spaces, farmland and countryside for future generations and to protect the local flora and fauna of the area. We have lived in Lisvane for 10 years and chose to live here as it offered the nearby countryside with easy access to the City. Please don't spoil this for all residents of North Cardiff.

I've lived in Cardiff long enough to know that Green Belts mean absolutely nothing if developers and local authorities are determined. Templeton Avenue was built on a G.F.S. We need a permanent agreement NOT TO BUILD.

LYN DAWKES United Kingdom, Cardiff

LLANISHEN HAS HAD NOTHING BUT BUILDING GOING ON SINCE I MOVED HERE 8 YEARS AGO. THE AMOUNT OF HOUSES AND FLATS I HAVE SEEN GOING UP IS OVERWHELMING THE AREA ESPECIALLY THE ROADS AND WE HAVE BEEN PROMISED EVEN MORE.

It is disgraceful that Cardiff Council is allowing prime agricultural land to be used for development. The eastern side of the City is being shamefully over developed when brown field sites could be utilised instead.

The roads alone will not take further traffic. Suggest whoever wants to build these houses get the infrastructure in place first and put in new railways or good cheap public transport.

The short cut through to the A48 and M4 that used to be Lisvane village has made the local roads unsafe! The traffic needs to be re-routed onto a new road urgently. That does not mean that 1200 additional houses are required. Please save our green areas.

I support this petition, too many green field sites are being built on simply because the house builders are running out of land, we are an island there is only so much space to build houses etc. wake up before it is too late and we have no green space to look at!!
